ADM-2.2

30 October 1964

MEMORANDUM FOR: Chief, O/BPAM

25X1A9a

ATTENTION : [REDACTED]

THROUGH : Executive Officer, DD/S&T

SUBJECT : CIA Computer Equipment Budgetary  
Data (FY 66) and CIA Computer  
Utilization Charts

1. Attached are budgetary data for FY 66 and computer utilization charts covering the past twelve months, per your request.

2. Comment --

Although OL procurement actions occur only with OCS acquisition approval, Agency components, under present procedures, do place in their budgets funds for equipment acquisition without prior coordination or approval from OCS. Thus, the equipment acquisitions reflected in the attached schedule for FY 66 have not been coordinated with OCS and cannot be presumed to have OCS approval. In the next call for estimates I would recommend that BPAM require components of the Agency to meet and discuss their computer requirements with OCS prior to budget estimate submissions.
